

## ➤ Facade Protection and Decoration

### ➤ Cabana Bay

John Gibson established JC Gibson Plastering Co., Inc. in Orlando, FL, in 1982. Since that time the company has completed numerous commercial and hotel projects in Georgia, Florida, North & South Carolina, Cayman Islands and Nassau. The company has achieved over 30 years of success.

Over a 10 month period, and facing all of nature's elements JC Gibson installed over 400,000 square feet of PAREX materials. Using the 121 Dry Hi helped JC Gibson to eliminate one layer of mesh in the high traffic areas, which lead to a cost savings over all.
