

## > Facade Protection and Decoration

### > PDI (Policía de Investigaciones) Temuco

The seven-story building, located in a growing urban area with high population density, has large common spaces, clean heating systems, an energy efficiency system, an auditorium, a victim examination room, a minor custody room, an on-duty room, holding cells, kennels, sleeping rooms for institutional personnel, interview rooms for minor victims, and a modern forensics laboratory with nine sections: mechanics, drawing and surveying, document investigation, photography, audio-visual, print analysis, chemistry, accounting, and ballistics.

All of the covering on this structure was made with our PAREX Style One- Coat line, along with EIFS 2 in 1, Primer, and AquaSol Sand Fine finish.
