### > Barwa City project

Barwa City is a development designed to provide modern homes in a contemporary setting.

The development comprises around 6,000 apartments in 128 buildings, spread across 1.35 million square meters. It offers unique housing solutions that meet various needs and lifestyles, consisting of studios, and two and three-bedroom family apartments. When complete, the development will also feature international schools, nurseries, retail outlets, a bank, health club, mosques, restaurants and a variety of recreational facilities.
