> Pullman Pattaya Hotel G

Pullman Pattaya Hotel G is part of Accor Hotels Group which located in Pattaya, one of the top tourist destination in Eastern part of Thailand. The renovation took place in 2014 to transform an existing classic room of the hotel into all new deluxe room. With total of 214 rooms and other facilities, the hotel structure was renovated to complemented with the fresh new look of the hotel.

LANKO 701 was used to repair and reinforce the structure by removing the damaged concrete and create formwork around the damaged area before grouting. LANKO 751 was used to improve the bonding between existing concrete structure and LANKO 701 to ensure the bonding.
